---

**SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT**

**LEGAL DIVISION MEMORANDUM**

**DATE:** April 29, 1988  
**TO:** William Dennison  
Lee Lockie  
**FROM:** Peter Greenwald /s/ PG  
**SUBJECT:** District Rule 216

It has come to my attention that some District personnel have been under the impression that an applicant may file a permit appeal petition within ten working days after receipt of the disputed permit denial or permit. This is incorrect. An applicant must appeal the denial of a permit or the conditions placed on a permit within ten calendar days of receipt of the denial letter or permit.
